

# DOURADO RESOURCES LIMITED

ABN: 84 131 090 947

*Dourado Resources Limited (DUO) is an Australian company with a portfolio of quality gold, copper and zinc exploration assets.*

*As a copper & gold explorer DUO is focused on a quality package of tenements in the Mid West Region of WA. Initial efforts are directed at two highly prospective areas.*

#### Mooloogool/Diamond Well Projects

*Current exploration work in the area has identified at least 13 anomalous geochemical zones. Ongoing fieldwork on 10 of the zones has to date yielded results which are consolidating these findings. Results from a ground based gravity survey confirm the presence of significant WNW-ESE structures.*

*The RAB program is continuing to yield results with several locations where black, sulphidic shales have been sampled. These have been submitted for assay and initial results confirm anomalous copper and zinc although most assays have not yet been received.*

#### Sabbath/Garden Gully Projects

*Data from the resource drilling has been reviewed for the Project. The high grade, near surface mineralization appears to occur in several south-plunging shoots. A proposed 15,000 metre RC program has been approved by DMP and is scheduled to start next quarter. This program is looking to extend the resource down dip, along plunge and along strike as well as investigate the possibility of parallel lodes.
